How can this be!! Seung-Suh is trapped in Yun-Jin's brilliant plot, and it seems like there's no way to escape. Thinking it might be better to face the problem rather than run from it, Seung-Suh goes and apologizes to Mi-Ha only to be flattened by her mighty punch! Will this really be the end between the two of them? Find out more in the fourth volume of the series!

Words from the Creator

I used to sit in front of the T.V. for hours until I had headaches…But lately, I don't even have time to watch it for even an hour. Even still, whenever I watch programs like "60 minutes" that dig up the truth, and other shows that deal with law or romantic problems between couples, I find myself engrossed and glued to the T.V.

These days I've been thinking about writing a story about a normal whiny middle-aged man and wife who become wrapped in an unusual plot. Of course my friends immediately say, "What?! A story about old people? You really are over the hill now. Where did you hide your walker?") T

Yeah…the thirties are coming…soon…Sniffle…

Ah, the schedules got a bit messy and the book was a little late, so for those of you who have waited, thank you very, very much.

To family, friends, my right and left handman Woo-Wun and Jae-Eun, and my editor… everyone thank you very much~!!
